Industrial design rendering
product prototype building
Wood Working

User Experience
Wireframes, site maps, and storyboards
User research and testing
Responsive design practices
Interactive prototypes, personas, and scenarios

Languages
Chinese (Native)
English (proficient)
Japanese (proficient)

Experience

Lead 2D Concept Artist | Clockwork labs 2022.2-Present
Project: Bitcraft online

Solely managed the character 2D art pipeline for 4 years, owning the creative vision for all characters, creatures, and apparel from initial sketch to final 3D handoff.

Streamlined 3D integration by producing comprehensive orthographic turnarounds and material callouts, ensuring 100% design fidelity in the final models.

Developed extensive world-building assets, including intricate clothing systems and creature hierarchies to expand game lore and visual variety.

Produced high-impact marketing art and promotional illustrations used for brand positioning and user acquisition.

Freelance Concept Artist | Shangties Studio 2024 .9-2024.11
Project: Marvel Rivals

Cinematic Matte Painting: Created high-fidelity environment paintings for in-game cutscenes.

AAA Standards: Maintained strict IP consistency for one of the world's largest franchises.

Contract 2D Concept & Illustrator |Funovus Studio 2021.3- 2021.12
Project: Wild Sky (Mobile)

Designed new hero characters and creature concepts, expanding the game's playable roster and enemy variety.

Created themed character skins, balancing creative flair with existing technical constraints for mobile optimization.

Painted large-scale banner illustrations and promotional assets to drive seasonal events and in-game storefront engagement.

Freelance Visual Development Artist | Film Industry 2024.8-2024.9
Rendered cinematic color keys to establish mood, lighting, and palette for film sequences.
